

=====

CONTEST INSTRUCTIONS

=====

- Complete each exercise and post your answer along with working, neat code in the RESPECTIVE discussion (ONLY). One discussion per exercise has been created by the instructor.
- Also post the output of your programs along with the answers.
- Submission of only one answer per exercise per student is permitted.
- Answers once submitted are not allowed to be modified. All modified answers will be disqualified.
- Once you have completed all the exercises, send the instructor a personal message via the messaging functionality provided by Udemy to claim your prize.
- THE FIRST 10 STUDENTS WHO COMPLETE ALL THE EXERCISES WITH CORRECT WORKING CODE WILL GET THE INSTRUCTOR'S NEXT COURSE ABSOLUTELY FREE.
- The contest lasts only till all the 10 prizes are claimed!!! The exercises and the instructor's support will, however, be available post the contest too! :)
- The instructor's decisions will be final and binding on all the students.
